A full-stack software engineer with a strong emphasis on **front-end** development particularly in JavaScript and PHP technologies.

I have been working on front-end programming for **web** and **mobile** applications for **7 years** specializing in trending JavaScript technologies, exclusively using **React**, **Vue**, and also **Svelte**. I'm also skilled in **cross-platform app** development, where I favor using **Ionic** and **Capacitor**.

My skill set includes server-side development as well, focusing on utilizing **Node.js**, **Laravel** and **Supabase** as my primary backend tools.

I'm a **passionate** and **dedicated** person. I have a passion for crafting **user-friendly interfaces** and optimizing overall **performance** and **SEO**. I'm known for paying close **attention to detail** and dedication to maintaining **high quality** in my work.
